It’s spring time, the most exciting time of year in the veggie garden!

Our broad bean seedlings took off, growing up and out, giving us an abundance of beans to cook, eat and enjoy!

We have celery, lettuce and strawberries too.

The silverbeet is starting to produce seeds so we will collect them and replant it next year.

The weather is getting warmer so we have planted tomato seedlings (self-seeded and transplanted from Mrs. Hartigan’s own garden).

Garden Club is held every Thursday during the first half of lunch time.

Garden Club involves a mini-lesson about plants and lots of work in the garden, including planting, maintaining, harvesting, cooking or eating!

There is no need to sign up, all you need to do is be at the gazebo near the veggie patch at 1pm and everything will be provided.

We require some help in the veggie garden over the summer holiday period.

If you have a week or more when you are able to come and water the school veggie garden, please email Mr. Zito (zito.daniel.j@edumail.vic.gov.au) with your availability.

A roster will be distributed and all equipment provided. As a thank you, you will be able to help yourself to the produce from the garden.
