

4CD & 4MM loved welcoming their special friends to celebrate Grandparents Day!

I was lucky that all my grandparents came to visit me. What a wonderful experience I had playing maths games with my nanny who was a Maths teacher. My nanna, who is Maltese, is very kind. Nunnu, who is also Maltese, calls me sweet names. My grandpa always says dad jokes. It was the best Grandparents' Day ever! **Charlotte**

I was very excited when my two grandparents stepped into my classroom. I hugged them and played a maths game called 'Monster Maths' to practise my times tables. **Nick**

I was so excited my Mama (grandmother) was in my classroom with me. We played some amazing maths games. We enjoyed testing our timetables and spending time together. Although she lost twice, she still had a smile on her face. **Phoebe**

My grandpa is from China and he has come to stay for one month. He was here for 12 days before he came to my school. He really liked my school because it is beautiful. **Silas**

I felt happy because both my grandmas came. I was only expecting one but they both visited Greythorn PS. I showed them our library and they loved it. Charlie and I showed them the veggie garden. My grandma knew every plant because she was a farm girl. It was a great day. I can't wait until next year! **Lachlan**

It was a great opportunity to have my grandpa come to my school to interact with me. My grandma passed away about two weeks ago so this was a great recovery to our family's very sad loss. **Alison**

It was exhilarating to see my grandparents on Grandparents Day. It was fun to play 'Monster Maths' and my grandma won. Unfortunately they had to leave early to see my brother. **Alex**

My grandpa and grandma both came to visit my classroom. I was very excited. I never expected them to come. We played plenty of maths games but the problem was that in every Maths game we played, I lost. My grandparents always won! **Anne**

I was lucky enough to have my great aunt visit me at my school. I was over the moon! I wish that grandparents and special visitors could come and visit every day. My Aunt Judy works at a library, so she was thrilled to see our colourful library. Surprisingly my teacher and Judy knew each other. The world is smaller than we think. **Emma**

It was great for my grandpa to see the work I did. When he came he gave Keira, my cousin, and me a hug. We played 'Monster Maths' and he won. I had a great time and I hope we have another day like this again. **Yong Hao**

It was really exciting having my Nanna come and visit. We had an opportunity to play a game called 'Monster Maths'. She beat me once. I didn't mind. **Jack**

It was an awesome experience for my grandpa to come to G.P.S. I felt excited because he normally doesn't come to see me at school. I had the opportunity to play 'Monster Maths' together with my grandpa and Yong Hao, my cousin. We enjoyed the game and always took turns. I wish there would be another day like this again. **Keira**

It was exciting seeing lots of grandparents at our school. I was a bit nervous because my grandma was first in the classroom. I beat my grandma in some maths games. **Will**

My grandma was the first to come to my class and I was so excited to see her. She hugged me and kissed me on the cheek and whispered in my ear that she would take me to see the movie "Despicable Me 3". After that I was too surprised to speak. Ms Durante read us a chapter of "The Nimbin" and after that my grandma and I played 'Monster Maths'. I beat her twice but she nearly won the second time. The time came for my class to go to PE. I was sad to see her go but she can always come again next year. **Joshua**
