Dear Middle School Parents,

Welcome to Term 4!

We hope you had a relaxing break and are looking forward to another busy term at Greythorn Primary School.

Our inquiry focus is Physical Science. The understandings for this inquiry include how heat moves from one object to another and how objects can move.

During the reading workshop sessions we will continue book clubs where students read novels, record their reflections and discuss their thinking with their peers. Students will plan, write and edit narrative and procedural pieces of writing.

In mathematics the Number and Algebra focus will be the four processes of addition, subtraction, multiplication and division. Students will also complete a unit on Statistics and Probability, Mapping and Symmetry.

Summer Cup will begin in our Friday sport sessions. The students will be grouped into 16 house teams across Years 3 and 4 and will compete in eight different games which will include T-Ball, netball, cricket, hockey, rounders, basketball, boot ball and table tennis.

The wellbeing sessions will be centred on the school value ‘Integrity’ and on the You Can Do It key, ‘Persistence’. Common Sense Media sessions will focus on using technology safely and responsibly.

We thank you for your continued support and look forward to a productive and exciting Term 4.

Kind regards,

The Middle School Teachers
