Concert!

In week 3 the Prep children participated in their first ever School Concert! Mrs Odou created an absolute masterpiece and the children worked tirelessly on their songs and dances for weeks leading up to the big night.

The concert presented a range of learning for the students; this not only included the night of the concert, but from the very beginning we had wonderful opportunities for the children to use their knowledge across the curriculum to pull the final concert together and deliver an unforgettable show for them and their families and friends.

Some of the learning included;

Literacy

- reading and singing the words to all the songs we had to learn.
- Listening to and following directions from Mrs Odou and the concert team.
- Learning the concepts of music to know when to start to sing and dance in a group.

Numeracy

- Knowing when to count themselves in to start a song.
- Turn taking when on stage and counting the number of beats in each of their movement parts.
- Knowing the number they were in their line, and directionality like in front, behind and in the middle of the stage.

Science

- Colour blending of the lights on the stage to create the best atmosphere.
- How sound travels through space and how we can harness and control it for maximum effect.

Wellbeing

- Confidence to stand in front of the concert and sing and dance
- Resilience to overcome stage fright and do an amazing job
- Signing is for the soul, what reading is for the mind.

Our Prep students did such an amazing performance, they are as talented and creative as they are intelligent and wonderful people. They shared the stage beautifully and were an absolute credit to the school, their families and the wider community. Who knows what stars we uncovered or lit the spark of being on stage for these children when we did this concert?

To be able to witness the coming together of such an event was an absolute privilege and I can't wait to do it all again!
